

Distribution box JXF size indoor

AI Overview

JXF indoor distribution boxes are available in various sizes, typically ranging from 200x200x150mm to 1800x1000x300mm, and can be customized for recessed or surface-mounted indoor installation. Standard Sizes and Customization The JXF series distribution boxes are manufactured in standard sizes from 200x200x150mm up to 1800x1000x300mm, suitable for indoor use. For recessed or concealed indoor installations, boxes can be customized; for example, a concealed box sized 250x200x140mm is ordered as JXF252014R, where the "R" indicates a recessed indoor model. Surface-mounted models are also available for indoor installation, providing flexibility depending on wall or panel requirements. Material and Construction JXF boxes are made from cold-rolled steel or stainless steel, treated with decorative powder coating for durability and corrosion resistance. They include a metal plate for fixing electrical devices, a lid for input-output conductors, grounded dowel pins, gaskets, and a special lock. The opening direction can be customized to suit installation needs. Electrical and Environmental Specifications Rated voltage: up to 1000V Maximum current: up to 1250A IP rating: IP55 for standard boxes, with some models up to IP65 System compatibility: 50Hz, 500V and below, supporting three-phase three-wire, four-wire, or five-wire systems with load currents not exceeding 250A Operating conditions: Indoor ambient temperature between -25°C and +40°C, altitude below 2000m, relative humidity below 40% at +20°C, free from severe vibration, impact, explosive hazards, or corrosive gases Applications JXF indoor distribution boxes are widely used in residential, commercial, and industrial settings, including metallurgy, petrochemicals, healthcare, aviation, schools, shopping malls, and urban redevelopment projects. They provide control, leakage protection, motor overload, short-circuit, and phase-loss protection, ensuring safe and reliable operation. Installation Indoor JXF boxes can be surface-mounted or recessed dependi...
