

Fiber optic cable a set of 12 core ribbon wires

Overview

These cables consist of 12 to 216 fibers organized into 12-fiber ribbons inside a central tube. Dielectric strength members provide tensile strength while a specially formulated flame-retardant outer jacket allows the design to meet the requirements of the NFPA 262 flame test. Corning ribbon plenum cables are designed for use in plenum, riser and general purpose environments for intrabuilding backbone installations and for high-fiber-count data centers. Mouser offers inventory, pricing, & datasheets for 12 Fiber Fiber Optic Cables. Tensile Strength During Installation Max. Quantity must be a multiple of 1. The minimum order quantity for this item is 1. Imagery is for general reference and may not represent the actual part number.
